How I Keep My Hair Young and Beautiful

I know that every woman desires

By Mabel Graham

beautiful hair, and if they will follow my rules they will have as long, sof and fluffy hair as I have. In the first place I wash my head well once twice a month with a shampoo made as follows: Take half of a ten-cent cake of pure castile soap, shave fine, dissolve this in half a pint of water with aid of gentle heat; when dissolved beat in the yolk of one eag and juice of one lemon; stir until cold. Rub a little of this into the roots of the hair, and rinse thoroughly with warm water and dry. I also use a quinke hair tonic freely, which keeps the scalp clean and the hair in a beautiful and healthy condition, and is especially good for dandruff and falling hak. I find the best tonic can be made by mixing a half pint of skeobol with half a pint of water and adding one sunce of beta quinel (liquid.) This makes a quinine hair tonic better than the high priced imported makes, and a whole pint only costs 55 to 75 cents. I am sure if every lady will try this twice a month with a shampoo mad I am sure if every lady will try this recipe they will always have young and beautiful hair, and plenty of it.
